****Hiring Manager****

OpenAI

San Francisco, CA

Dear Hiring Manager,

I am writing to express my interest in the Research Engineer position on the Collective Alignment Team at OpenAI. With a robust background in artificial intelligence, machine learning, and a deep commitment to ethical technology and sustainable development, I am excited about the opportunity to contribute to OpenAI's mission of ensuring that AGI benefits all of humanity.

My extensive experience in AI and machine learning includes the development of innovative solutions that integrate AI with organic and sustainable practices. I have led multiple companies advancing organic solutions, developed strategic plans for market expansion, and spearheaded projects focusing on ethical technology. My work with AI has been particularly focused on utilizing machine learning to solve complex problems, which aligns well with the responsibilities outlined for this role.

At Global Organic Solutions, I have programmed autonomous scientific experiment generators and devised thousands of scientific experiments in AI, machine learning, and sustainability. This experience has equipped me with the skills necessary to write performant and clean code for ML training, independently run and analyze ML experiments, and develop interfaces for human interaction with AI models.

I am particularly drawn to OpenAI's commitment to incorporating public input into the development of AGI. My efforts in promoting the Universal Declaration of Organic Rights and the Organic Revolution have involved extensive public engagement and democratic input, which I believe will be invaluable in the Collective Alignment Team's work. My expertise in curating large datasets, examining the impact of different methodologies, and exploring innovative approaches to AI aligns perfectly with the responsibilities of this role.

I am eager to bring my skills and experience to OpenAI, and I am confident that my background, passion for ethical AI, and commitment to collaborative research will enable me to make significant contributions to the Collective Alignment Team. Thank you for considering my application.

Sincerely,
Marie Seshat Landry

Resume
