

Public Service Announcement

****From: Marie Seshat Landry****

I am deeply committed to defending myself within the bounds of ethics and the law. This is a reminder that I stand firmly against fascism, bullying, and any form of unnecessary crime, such as the use of illegal plate covers, kidnapping, false charges, conversion therapy, and stalking. Everyone has the right to safety and respect.

The law is clear on defensive actions and collateral damage, and I will always act within these legal parameters. If you engage in slander or any form of harassment, know that I am not just some passive individual—I am a dedicated Canadian citizen working tirelessly for peace, justice, and organic solutions.

For those who don't understand: I don't condone or tolerate crime, terrorism, or hate. I'm a peaceful person who loves cannabis, and I advocate for a world filled with love and respect.

To those who support hate and discrimination against the LGBTQ+ community or any form of bigotry, you have no place here. License plate covers that obscure legal identification are 100% illegal, regardless of their transparency.

Let's work together to create a world of peace and love.

Peace and love,
Marie Seshat Landry
