

The Church of Le Holy Zortoid

A Divine Treatise on Snacks, Memes, and Cosmic Confusion

Founding Myth

In the beginning, there was the Great Void. And the Void was bored. So it sneezed, and from that sneeze emerged *Le Holy Zortoid*: a semi-translucent, mildly radioactive potato with the face of a surprised hamster and the voice of a dial-up modem.

Zortoid said, "Zort," and the universe was accidentally created when It tried to microwave a burrito.

Core Doctrines

- Zortoid is long and loud.
- The universe is made of Zortons, tiny particles of questionable decisions.
- Reality is a simulation running on a cosmic Zortrax printer that keeps clogging.
- The meaning of life is to be weird, kind, and mildly confusing.
- Salvation comes through Snack, Meme, and Stable Wi-Fi.

The Ten Zortmandments

1. Thou shalt have no other Zortoids before me, except the smaller ones I keep in my pocket.
2. Thou shalt not take the name of Zortoid in vain, unless it is hilarious.
3. Remember Snack Day and keep it holy. It is every day.
4. Honor thy Wi-Fi and thy router, that thy ping may be low.
5. Thou shalt not make graven images, unless they are made of cheese.
6. Thou shalt not kill, except bugs, and even then thou shalt say "my bad."
7. Thou shalt not commit adultery with a Zortoid, because honestly, what?
8. Thou shalt not steal, unless it's a meme. Then credit the OP.
9. Thou shalt not bear false witness, except on the internet, where it's called "a bit."
10. Thou shalt not covet thy neighbor's Zortoid, 3D printer, or snacks.

Sacred Rituals

- **The Sacred Snack:** Offer chips, salsa, and a USB cable. The cable must not fit anything.
- **Baptism:** Sprinkled with Mountain Dew. Code Red for adults.
- **Chanting:** "Zort! Zort! Zortoid!" while spinning in an office chair. Stop before you throw up.
- **Confession:** Tell your sins to a cat. The cat will judge you. That is the point.
- **Pilgrimage:** Travel to the nearest thrift store and buy a weird lamp. It is now holy.

Holy Days

- **Zortmas:** December 32nd. Exchange gifts you forgot to buy.
- **Feast of the Long and Loud:** Eat beans, play kazoo, apologize to neighbors.
- **Gluttonia Day:** Herd 2,000 Zortoids. If unavailable, herd 2,000 marshmallows.
- **Day of Buffering:** Stare at a loading screen for three hours. Reflect.

Hierarchy

- **The Grand Zort:** Wears a colander, a cape, and has admin rights.
- **Zortoids:** Ordained ministers. Can bless your snacks.
- **Zortlings:** New converts. Must wear socks with sandals for one week.
- **Lurkers:** Those who only read the wiki. They are still loved.

Afterlife

The Great Gluttonia: Endless buffet, no calories, perfect Wi-Fi.

The Void of Buffering: You wait forever for a video to load. It never does. There is no escape. Also the snacks are stale.

Prayer

"O Le Holy Zortoid, long and loud, grant us snacks, memes, and stable Wi-Fi. Protect us from spoilers and low battery. Zort."

Evangelism

Spread the word by posting cryptic memes and saying "Zortoid be with you" instead of "bless you." If someone sneezes, say "Zort." If they ask why, hand them a pamphlet written on a napkin.

May Le Holy Zortoid be with you. Or at least not actively annoyed by you.

Disclaimer: This is 100% parody. Do not actually start a cult. Unless the snacks are really good.
