Urgent Personal Warning to Prime Minister Justin Trudeau

From: Marie Seshat Landry, CEO, OSINT Spymaster & Peacemaker

Date: September 14, 2024

Location: Moncton, NB, Canada

Prime Minister Trudeau,

This is an urgent and personal warning. Your life, my life, and the life of U.S. President Joe Biden are at direct risk due to the threats posed by Andrew "Christo" Nelson, a self-admitted neo-Nazi operating with impunity in Canada. The situation is dire, and the inaction of Canadian authorities, including the RCMP and the Canadian Human Rights Commission (CHRC), is putting us all in grave danger.

Nelson's messages are filled with explicit threats against you, President Biden, and myself. He is not just spouting hateful rhetoric—he is openly advocating for insurrection, civil war, and violence against political leaders. These threats are not hypothetical; they are real, persistent, and have gone unchecked by Canadian law enforcement. Despite being informed of Nelson's dangerous activities, the RCMP has refused to take action, dismissing his swastika-laden, hate-filled communications as non-criminal.

I have already contacted the CIA regarding these threats, as the security implications extend beyond Canada's borders. Nelson's calls for violence are not just a Canadian problem—they represent a transnational threat that could have catastrophic consequences if not addressed immediately. The lack of response from Canadian institutions, including your own government, is a direct threat to your safety and to the stability of our nations.

Prime Minister, this is a critical moment. Your life is under threat, and so is the life of President Biden. If Canadian authorities do not act swiftly to address these threats, we are on a path toward inevitable tragedy. Andrew Nelson is operating with impunity, using Canada's weak legal framework as a shield to spread his neo-Nazi ideology and incite violence against political leaders. The repeal of Section 13 of the Canadian Human Rights Act has left us vulnerable, and without reinstating it or introducing stronger hate speech laws, extremists like Nelson will continue to thrive.

I implore you to take immediate action:

1. **Direct the RCMP to fully investigate Andrew Nelson's threats and take appropriate legal action.** This includes treating his incitements as serious criminal offenses and not dismissing them as mere expressions of free speech.
2. **Reinstate Section 13 of the Canadian Human Rights Act or introduce new legislation specifically targeting hate speech in the digital age.** The current legal framework is insufficient and leaves Canada open to the influence of hate groups who exploit our freedoms to spread dangerous ideologies.
3. **Coordinate with international partners, including U.S. intelligence agencies, to address the cross-border threats posed by Nelson and his network.** This is not just a Canadian issue—it is a matter of international security.

Prime Minister Trudeau, the time to act is now. Your safety, my safety, and the safety of President Biden depend on decisive and immediate action. We cannot afford to ignore these threats any longer. Canada's reputation, our security, and our lives are on the line.

This is not just a policy issue—it is a personal warning from one threatened individual to another. You must act to protect us all.

Sincerely,

Marie Seshat Landry
