

Open Diplomatic Letter to His Majesty King Charles III

Request for Peaceful Abdication and Closure of the British Monarchy

To: His Majesty King Charles III
Buckingham Palace
London, United Kingdom

From: Marie Seshat Landry

Your Majesty,

With sincerity, reverence, and a commitment to peaceful evolution, I write to invite Your Majesty to consider a legacy-defining act that no monarch has ever dared but which history now demands: the **voluntary abdication of the British throne**, and the peaceful **closure of the British monarchy**, without the appointment of a successor.

For centuries, the Crown has presided over empire, conquest, and colonial administration. But in this time of planetary crisis and ethical awakening, it is clear that humanity must move beyond the age of monarchies, feudalism, and mythic rule. Your reign presents an unprecedented opportunity to transform the legacy of your lineage from one of domination to one of planetary reconciliation.

Imagine, Your Majesty: instead of presiding over the decline of the Commonwealth, you could become the first monarch in world history to peacefully dismantle the institution from within. This would be the ultimate act of courage and vision — the symbolic and actual end of imperialism.

What We Propose

We respectfully request that:

- You **abdicate the throne** of the United Kingdom and the Commonwealth realms;

- You declare the **British monarchy dissolved and non-hereditary**;
- You return all Crown lands and wealth to **Indigenous, local, and organic communities**;
- You publicly support the formation of post-colonial republics such as **Kanatawi**, and others worldwide;
- You embrace a new role as **Earth Elder Emeritus**, a global peace figure without title or domination.

In Exchange

Rather than the shame of revolt or the stain of dethronement, we offer your legacy an unprecedented gift:

- The **Organic Crown of Peace** — a handcrafted medal of honor made from hemp-based diamond composites (Seshat's Composites), Ojibwe beadwork, and sacred stones.
- A ceremonial position as **Global Witness of the Organic Age**, with no governing power, but universal moral influence.
- A permanent honorary seat at global ecological summits, with ceremonial recognition by future Organic Nations.

The Case for Closure

This is not an act of aggression. It is an invitation to transcend.

Let the age of monarchy end not in blood, but in beauty — not in silence, but in song. Be the last king. The peacemaker. The one who chose humility, dignity, and freedom over legacy, gold, and title.

The world is watching. Our generation will remember not who reigned — but who released their power with grace.

With Respect and Resolve,

Signed,

Marie Seshat Landry
