

Marie Seshat Landry: Visionary CEO, Scientist, and Innovator

Marie Seshat Landry

March 14, 2025

Introduction

Marie Seshat Landry is a visionary CEO, scientist, entrepreneur, peace advocate, and independent researcher at the forefront of sustainable innovation and ethical technology. She leads groundbreaking ventures such as **Marie Landry's Spy Shop**, **Global Organic Solutions**, and **SearchForOrganics.com**, driving the **Organic Revolution of 2030** and championing the **Universal Declaration of Organic Rights (UDOR)** to establish international standards for organic production. Her work spans artificial intelligence (including NLP and autonomous science), digital marketing, sustainable development, and cutting-edge research on organic superfoods, hemp-based eco-solutions, and biodegradable materials. As a proud trans woman and advocate for LGBTQ rights, she integrates social justice with scientific rigor to promote ethical practices and positive change worldwide.

Core Expertise and Projects

1. Visionary CEO and founder of multiple projects:
 - Marie Landry's Spy Shop (Business, Science & Intelligence)
 - Global Organic Solutions
 - SearchForOrganics.com
2. Leading the **Organic Revolution of 2030**
3. Developing the **Universal Declaration of Organic Rights (UDOR)**

4. Pioneering **Diamond Composites** — a class of Hemp-Derived Carbon Nanosheet (HDCNS) materials
5. Building **10,000 New Pyramids for sustainable food production** by 2030
6. Advancing **AI models** like PeacemakerGPT, MissionGPT, and Scientibots
7. Championing the **Global Certified Organic Standard (GCOS)**

Research and Innovation Focus

- AI and Natural Language Processing (NLP)
- Autonomous Science and Multi-Expert GPT Models
- Sustainable Hemp-Based Materials (Diamond Composites)
- Organic Superfoods and Aeroponics
- Hemp-Derived Carbon Nanosheets (HDCNS) Research
- Circular Economy and Biodegradable Solutions
- Ethical Intelligence and OSINT/HUMINT Operations

Blogs and Platforms

Marie Seshat Landry operates multiple blogs and platforms that support her mission:

- Marie Landry's Spy Shop
- The Organic Revolution of 2030
- Scientibots: Autonomous Science
- Diamond Composites
- Search For Organics
- Global Organic Solutions
- PeacemakerGPT

- New Pyramids
- Crown Hemp International
- MissionGPT
- MissionX

Material Science Innovation: Diamond Composites

Marie invented **Diamond Composites**, a subclass of HDCNS-Integrated Composite Materials made from:

1. Hemp Nanosheets (HDCNS)
2. Hemp Oil
3. Hemp Lignin (Curing Agent)

These materials are carbon-negative, biodegradable, and can be used in aerospace, automotive, and construction industries.

Global Impact and Future Vision

1. Organic Hemp Revolution of unprecedented scale
2. Terraforming deserts and Mars with hemp-based ecosystems
3. Building **100,000 autonomous aeroponic pyramids** by 2050 to feed 100 billion people
4. Promoting the **Universal Organic Superintelligence (UOS)**
5. Integrating advanced AI models into ethical intelligence operations

Ethical Stance and Advocacy

- LGBTQ+ Rights and Inclusivity
- Peace Advocacy and Social Justice
- Anti-War, Anti-Capitalist, Pro-Organic Policies
- Open-Source Intelligence (OSINT) and Ethical HUMINT

Conclusion

Marie Seshat Landry stands as a global leader in sustainable innovation, AI ethics, and organic rights. Through her groundbreaking projects and visionary leadership, she is pioneering a future where organic technology, hemp-based materials, and AI-driven solutions drive planetary restoration and human well-being.
