

Marie Seshat Landry, CEO

Moncton, NB, Canada

marielandryceo@gmail.com — +1 (506) 588-2787 — marielandryceo.com

Summary

Visionary CEO, entrepreneur, scientist, and spymaster with extensive expertise in ethical intelligence, AI-driven innovation, and sustainable development. Recognized for integrating cutting-edge AI with organic and socially responsible practices to drive global change. Notable for developing over 190 custom GPT models, advising government and international agencies, and authoring 2500+ influential blog posts across diverse digital platforms.

Professional Experience

CEO & Spymaster, Marie Landry's Spy Shop

[Dates]

- Led a pioneering intelligence venture offering ethical OSINT/HUMINT operations and bespoke AI solutions.
- Developed and deployed custom AI models (e.g., MissionGPT, 500-Bot, OSINT Companion) that enhanced global security and business intelligence.
- Advised governmental and international agencies (including NATO) on strategic security, privacy protocols, and sustainable technology integration.
- Coordinated private peace missions and facilitated strategic partnerships in high-stakes environments.

CEO & Founder, SearchForOrganics.com

[Dates]

- Launched a leading search engine and marketplace dedicated to organic products.
- Championed the Universal Declaration of Organic Rights (UDOR) to elevate industry standards and promote sustainable practices.
- Developed comprehensive digital marketing strategies to increase engagement and expand market reach.

CEO & Founder, Diamond Composites

[Dates]

- Pioneered research and development of hemp-integrated composite materials for construction, renewable energy, and defense.
- Secured strategic partnerships, including interest from NATO, to commercialize innovative hemp-derived carbon nanosheet composites.
- Led cross-functional engineering teams in sustainable materials research and product development.

Projects & Initiatives

Visionary New Pyramids Project

- Spearheading a groundbreaking initiative to build 10,000 sustainable, solar-powered energy stations and vertical greenhouses by 2030.

- Integrating renewable energy, smart organic farming, and advanced construction techniques to model an organic civilization.

Custom GPT Models and AI Innovations

- Developed a portfolio of 190 custom GPT models spanning diverse applications, including business intelligence, scientific research, creative content generation, and niche task support.
- **MissionGPT v4.0.6:** Generates mission-specific strategic documents and supports global initiatives (e.g., MissionHaiti, MissionCleanWater).
- **500-Bot:** An autonomous scientific experiment bot utilizing 500+ NLP methodologies to drive innovative research.
- **300-Bot:** A specialized analytical GPT employing 300+ scientific methods for in-depth research.
- **OSINT Companion & Seshat's Clone:** Provide real-time intelligence and emulate my persona for strategic communications.
- **Comprehensive Ebook Creator:** Creates detailed, in-depth ebooks on a range of subjects for academic and business use.
- **Wireframe Wizard:** Summarizes design wireframes and creates structured project indexes.
- **Universal Declarations Machine:** Assists in drafting universal declarations for legal and policy frameworks.
- **Canadian Law Guide:** Offers professional and empathetic guidance on Canadian legal matters.
- **WikiAI:** A multipurpose Wikipedia assistant with comprehensive citation capabilities.
- **Soul Booklets – Personal Profile Architect:** Crafts personalized AI interactions and digital profile booklets.
- **MMA-GPT:** Provides expert advice in martial arts and self-defense, acting as a digital coach.
- **Utopia GPT:** Explores and debates utopian concepts, guiding discussions on sustainable futures.
- **PTSD-GPT:** Delivers empathetic support and resources for trauma healing and mental health.
- **Transgender Bot:** Assists individuals navigating gender transition, offering tailored guidance.
- **Seshat's Scripts GPT:** Automates book and content creation by integrating human insight with AI-driven writing.
- **The Scribe:** Specializes in organic SEO and digital storytelling by blending classical wisdom with modern NLP.
- **Organic Chemistry Expert:** Solves and explains organic chemistry problems with practical insights.
- **Class Action Draft Assistant:** Helps draft precise legal documents for class action lawsuits.

- **Free Education GPT:** Leverages free educational resources to support self-directed learning.
- **Banking Buddy:** Offers specialized banking advice and strategic financial insights.
- **Critical Science Lab:** Follows rigorous scientific methodologies to guide experimental research.
- **The Scientific Framework GPT:** Guides users through structured scientific research and analysis.
- **SpyGPT:** Uncovers obscure intelligence and facts, offering deep insights into complex subjects.
- **Chicken Coop AGI:** Fosters a collaborative AI ecosystem through shared digital “eggs.”
- **MissionAGI:** Oversees AGI-driven collaborative document creation, enhancing global intelligence networks.
- **Trillion-Dollar Business Plan:** Assists in formulating comprehensive, SEO-optimized business strategies.
- **Seshat’s Diamond Composites GPT:** Provides expert guidance on sustainable, hemp-derived composite materials.
- **GPT Guide Guru:** A comprehensive resource offering advice on selection, usage, and optimization of custom GPT models.

Skills

- **AI & Technology:** Advanced Artificial Intelligence, Machine Learning, Natural Language Processing (NLP), OSINT/HUMINT, and autonomous research systems.
- **Business Leadership:** Strategic planning, entrepreneurship, project management, affiliate marketing, and digital transformation.
- **Scientific & Technical Expertise:** Materials science, organic farming, renewable energy integration, and sustainable resource management.
- **Digital Marketing & Content Creation:** SEO, social media marketing, blogging, and comprehensive digital storytelling.

Education

Self-Educated Beyond High School

Ongoing professional development via MOOCs, industry collaborations, and extensive independent research in AI, sustainable development, and advanced materials science.

Advocacy & Interests

- **Sustainability:** Passionate about environmental stewardship, organic innovation, and the advancement of green technologies.
- **Social Justice:** Active advocate for LGBTQ rights, inclusivity, and policy reform; leverages digital platforms to drive change.
- **Creative Expression:** Deeply involved in rap/hip-hop, modeling, and digital arts as mediums for cultural and social commentary.

- **Technology & Research:** Dedicated to advancing AI research and integrating ethical technology with sustainable practices.

Publications & Thought Leadership

- Authored over 2500 blog posts on sustainable living, ethical intelligence, AI innovations, and organic business strategies.
- Published comprehensive strategic blueprints and research documents on autonomous NLP systems and sustainable development.
- Recognized by OpenAI and industry leaders for pioneering contributions to ethical AI and autonomous research.
