

OSINT Academy Business Plan

Marie Seshat Landry
Founder and CEO, Landry Industries

May 31, 2025

Executive Summary

OSINT Academy is an AI-powered, open-access training platform that democratizes Open Source Intelligence (OSINT) education. By integrating tools like **SpyForMe** and **PeaceMakerGPT**, we empower individuals and organizations to conduct ethical, digital investigations aligned with sustainability and social justice.

1 Vision and Mission

Vision: To establish OSINT Academy as the global leader in AI-enhanced, ethical OSINT education supporting sustainable intelligence and public accountability.

Mission: To provide accessible, ethical, and multidisciplinary OSINT training through digital tools, real-world case studies, and open knowledge sharing.

2 Market Analysis

Target Audiences

- Investigative journalists, activists, and peacebuilders.
- Entrepreneurs, researchers, and NGOs.
- Law enforcement and public sector agencies.
- Academics and ethical hackers.

Trends

- Growth in AI-assisted threat detection and online research.
- Rising global demand for transparency and digital justice.
- Expansion of open-source tools in national security, human rights, and corporate intelligence.

3 Products and Services

1. Online Courses and Certifications

- Beginner to advanced OSINT training.
- Specialized modules: AI, ethics, sustainability, geopolitics.

2. AI-Powered Tools

- **SpyForMe** – AI-driven OSINT report generation.
- **PeaceMakerGPT** – Analysis of speech, media, and political behavior for harmful rhetoric.

3. Community and Research Network

- Global forums, collaborative investigations, and crowd-sourced case studies.

4. Workshops, Webinars, and Events

- Expert-led training on OSINT tools and ethics.
- Thematic events on digital peacebuilding, surveillance, and human rights.

4 Marketing and Growth Strategy

Brand and Platform

- Hosted on OSINTACADEMY.blogspot.com, integrated with MarieLandryCEO.com and SearchForOrganics.com.

Promotion Channels

- SEO-optimized blog content.
- AI case study series.
- Cross-platform engagement (YouTube, LinkedIn, X).
- Public relations and partnerships with universities, NGOs, and media outlets.

5 Revenue Streams

- **Course Fees:** Premium content and certification.
- **Tool Subscriptions:** SpyForMe Pro, PeaceMakerGPT+
- **Consulting:** White-label OSINT reports for businesses and nonprofits.
- **Grants and Donations:** Philanthropic and public sector funding.
- **Affiliate Tools and Resources.**

6 Operations Plan

Team Roles

- **Content Developers:** OSINT experts and journalists.
- **AI Engineers:** Tool development and data architecture.
- **Outreach and Partnerships:** Grant writing and promotion.
- **Support and Moderation Team:** Forum and course support.

Technology Infrastructure

- Hosted on scalable cloud servers with cybersecurity protections.
- Integrates AI and custom search APIs from **Google Organics** and **Bing Organics**.
- Open-source interoperability where feasible.

7 Financial Projections

Year	Revenue	Expenses	Profit
1	\$150,000	\$100,000	\$50,000
2	\$300,000	\$180,000	\$120,000
3	\$500,000	\$250,000	\$250,000

8 Risk Analysis

- **Competition:** Mitigated by focus on ethics, peace, and sustainability.
- **Tech Maintenance:** Addressed by modular design and partnerships.
- **Regulatory Compliance:** Aligned with GDPR and international privacy standards.
- **Financial Risk:** Offset by diversified revenue streams and low startup overhead.

Conclusion

OSINT Academy is positioned to become a transformative force in the ethical intelligence and digital accountability space. By combining open education, artificial intelligence, and sustainable innovation, the platform supports a new generation of investigators, educators, and change-makers dedicated to truth, peace, and organic intelligence.
