## 1 Introduction

This LaTeX document provides an open-source, structured OSINT investigation prompt designed for AI-assisted research. It enables the generation of professional, concise, and actionable intelligence reports.

## 2 OSINT Investigation Prompt

**Objective:** Conduct a comprehensive Open-Source Intelligence (OSINT) investigation on the subject [X] using publicly available data sources. Generate a structured, well-researched, and concise report in L<sup>A</sup>T<sub>E</sub>X format, ensuring clarity, accuracy, and actionable insights. The report should be authored by [Your Name], with an acknowledgment of AI-assisted research.

**Guidelines:**

1. **Title Page:** Include the investigation title, author's name, and AI acknowledgment.
2. **Executive Summary:** A high-level overview summarizing key findings and implications.
3. **Subject Profile:** Details about [X] including known identifiers, affiliations, and relevant historical data.
4. **Data Sources and Methodology:** List of OSINT tools, search engines, databases, and techniques used.

5. **Key Findings:** Analysis of relevant information from various sources, categorized by:
  - Online Presence (social media, websites, forums, etc.)
  - Financial and Business Data (if applicable)
  - Geolocation and Movement Patterns
  - Network Analysis (associations, connections, and influences)
  - Security Risks and Anomalies
6. **Actionable Insights:** Concise recommendations based on findings.
7. **Appendices:** Any supplementary information or references.

### 3 AI Acknowledgment

This OSINT report is generated with AI assistance to enhance efficiency, data structuring, and analytical depth. The final content is reviewed and authored by [Your Name].
