Preamble

Whereas the ecological integrity, biodiversity, and cultural value of Crown land constitute a national trust for all Canadians and future generations;

Whereas the use of synthetic chemicals and genetically modified organisms (GMOs) on Crown lands poses significant risks to environmental and human health;

Whereas the Government of Canada affirms its commitment to sustainable land stewardship through the *Universal Declaration of Organic Rights (UDOR)* and the principles of the Organic Revolution of 2030;

Therefore, Her Majesty, by and with the advice and consent of the Senate and House of Commons of Canada in Parliament assembled, enacts as follows:

Short Title

This Act may be cited as the **Organic Crown Lands Act**.

1. Interpretation

1.1. Definitions

In this Act:

- “**Crown land**” means all public land owned by the federal, provincial, or territorial governments of Canada, excluding lands designated as private property or held by Indigenous nations unless voluntarily included by sovereign agreement.

- **“Organic”** means land management and environmental practices that conform to certified organic standards and prohibit the use of synthetic chemicals, GMOs, or petrochemical derivatives.
- **“Synthetic substance”** includes any artificial pesticide, herbicide, fertilizer, fungicide, biosolid, or genetically engineered product not permitted under organic land use protocols.
- **“Responsible authority”** refers to any federal, provincial, or territorial agency tasked with the management, leasing, regulation, or conservation of Crown land.

2. Declaration of Organic Status

2.1. 100% Organic Mandate

1. All Crown land within Canada is hereby designated a **100% Organic Protection Zone**.
2. No activity shall be permitted on Crown land that violates certified organic standards, including but not limited to:
 - The application of synthetic inputs;
 - The release or planting of GMOs;
 - The disposal of biosolids or industrial waste;
 - Industrial-scale non-organic agriculture or extractive operations without regenerative offsets.

3. Enforcement and Penalties

3.1. Compliance and Violations

1. Responsible authorities shall develop and enforce policies to ensure compliance with this Act, in alignment with the Canadian Organic Standards and UDOR.
2. Any individual or entity found in violation of this Act shall be subject to:
 - Administrative penalties of up to \$500,000 per offense;
 - Criminal prosecution for willful contamination or destruction of organic ecosystems, with fines up to \$5,000,000 and/or imprisonment for up to 10 years.

4. Transition and Implementation

4.1. Grace Period

A transition period of 24 months from the enactment of this Act shall be granted for the phasing out of non-organic activities on existing leases or tenures.

4.2. Support for Organic Transformation

The Government of Canada shall allocate funds and technical assistance to support rewilding, organic land rehabilitation, Indigenous-led stewardship, and regenerative practices across Crown lands.
