Preamble

Whereas the Government of Canada recognizes the vital importance of protecting biodiversity, human health, and the integrity of ecosystems across the nation;

Whereas Canada upholds its responsibility to safeguard present and future generations from the harms of synthetic chemicals, genetically modified organisms (GMOs), and ecological degradation;

Whereas the Organic Revolution of 2030 and the *Universal Declaration of Organic Rights (UDOR)* set forth international standards for ecological stewardship, sustainable development, and the protection of organic integrity;

Therefore, Her Majesty, by and with the advice and consent of the Senate and House of Commons of Canada in Parliament assembled, enacts as follows:

Short Title

This Act may be cited as the **Organic Parks Act**.

1. Interpretation

1.1. Definitions

In this Act:

- **“Organic”** means practices and materials that comply with organic certification standards and exclude the use of synthetic chemicals, GMOs, petrochemical-based substances, and other artificial agents harmful to human and environmental health.
- **“Park”** refers to any land or water designated for public use or conservation under federal, provincial, territorial, or municipal jurisdiction, including but not limited to national parks, provincial parks, city parks, nature reserves, greenways, and urban ecological zones.
- **“Synthetic substance”** includes any chemical, fertilizer, pesticide, herbicide, fungicide, or material not naturally derived and not permitted under certified organic standards.
- **“Responsible authority”** refers to the managing governmental body responsible for oversight, enforcement, and compliance within a given park jurisdiction.
- **“Enforcement officer”** means any designated officer with authority to investigate, report, and act upon violations of this Act.

2. Organic Declaration

2.1.

All parks under federal, provincial, or municipal authority are hereby declared **100% Organic Protected Zones**.

2.2.

These lands shall be maintained, restored, and governed exclusively by organic methods in accordance with the standards established by the Organic Federation of Canada (OFC) or a successor authority aligned with the UDOR.

2.3.

All future development, restoration, and landscaping activities within these zones shall integrate climate-resilient, regenerative, and biodiversity-positive organic practices.

3. Prohibitions

3.1.

Within all Organic Protected Zones, the following are prohibited:

- Use or application of synthetic pesticides, herbicides, fungicides, or fertilizers;
- Introduction of genetically modified organisms (GMOs), synthetic seeds, or gene-edited organisms;
- Dumping or use of biosolids, petrochemical derivatives, or industrial waste;
- Installation of synthetic turf, artificial surfaces, or non-biodegradable materials not compliant with certified organic standards.

4. Enforcement and Penalties

4.1.

All responsible authorities shall enforce the provisions of this Act and may designate enforcement officers for inspections, investigations, and compliance verification.

4.2.

Violations of this Act shall be subject to the following:

- Administrative fines of up to \$500,000 for corporate or governmental entities;
- Criminal charges for willful or repeated violations, including potential imprisonment for individuals found guilty of intentional harm to an Organic Protected Zone;
- Mandatory remediation of any contaminated site or area, at the violator's expense, using approved organic restoration practices.

5. Implementation and Transition

5.1.

This Act shall enter into force within 180 days of its passage to allow responsible authorities to transition park management practices and establish enforcement protocols.

5.2.

A National Organic Parks Advisory Council shall be established to support local governments, provide technical guidance, and assist with compliance and organic transition planning.

6. Review and Oversight

6.1.

The Minister of Environment and Climate Change shall table an annual report in Parliament on the status, compliance, and improvements of Organic Parks, beginning one year after enactment.
