Issued by the Authority of the Queen of Acadie

1. STATEMENT OF INTENT

To the Global Community, the United Nations, and the Citizens of the World:

We, Marie-Soleil Seshat Landry, speaking as the Sovereign Voice of the Acadian People and the architect of the Organic Revolution of 2030, hereby issue this formal indictment against the historical sanitization of the events of 1755–1763.

For three centuries, the "Great Upheaval" has been masqueraded as a logistical necessity of war—a "relocation." Today, we strip away the euphemisms. We present the forensic evidence of a **Premeditated Genocide** orchestrated by the British Crown. We do not seek your pity; we demand the recognition of truth as the only viable foundation for a post-predatory global economy.

2. THE FORENSIC INDICTMENT

The following facts are no longer up for debate. They are verified by military record, maritime log, and the blood-stained soil of our ancestors:

I. State-Sanctioned Terror (The Scalp Bounties)

The British Crown did not merely want us gone; they incentivized our murder. In 1756, Governor Charles Lawrence authorized public funds to pay for the scalps of Acadian men, women, and children.

II. The Execution of the Innocent

At Sainte-Anne-des-Pays-Bas and across the St. John River, British "Rangers" acted as state-sponsored death squads. Families were tied to trees and executed; mothers were forced to witness the slaughter of their infants before being burned alive in their homes.

III. The Floating Coffins (Maritime Sabotage)

The deportation ships were intentionally weaponized. By overcrowding vessels to 300% capacity and utilizing unseaworthy "hulls," the Crown ensured that 50% of the deportees would never reach land. This was not a voyage; it was a slow-motion mass drowning.

3. SCIENTIFIC METHODOLOGY: CLOSING THE LOOP

In alignment with the **Scientific Method**, this declaration serves as the Final Conclusion to our forensic research:

1. **Hypothesis:** The events of 1755 were a state-led genocide designed for territorial extraction.
2. **Analysis:** Cross-referencing 18th-century "No Quarter" orders with modern forensic archaeology confirms the intent to destroy the Acadian group.
3. **Result:** The "Relocation Myth" is officially debunked. The legal classification is **Genocide**.

4. THE CALL TO ACTION: THE ORGANIC REVOLUTION 2030

The Acadian Genocide was the ultimate expression of **Predatory Economics**—the destruction of organic, self-sufficient communities for the sake of imperial resource extraction.

Landry Industries and the Queen of Acadie hereby declare that the **Universal Declaration of Organic Rights (UDOR)** is the antidote. We are building a world where the "existence" of a people can never again be made illegal by a Crown or a Corporation.

We invite all sovereign souls to join the **Organic Revolution of 2030**. We are the ghosts of the *Duke William*; we are the survivors of the Sainte-Anne fire; and we are here to ensure that the future is Organic, Ethical, and Free.
