1 Introduction

Marie Seshat Landry represents a unique convergence of entrepreneurship, intelligence analysis, and sustainable innovation through her leadership of **Marie Landry's Spy Shop**, a pioneering intelligence services company based in Moncton, New Brunswick, Canada. Her organization exemplifies modern intelligence ethics, cutting-edge open-source intelligence (OSINT), and advanced research in sustainable materials.

2 Professional Background and Expertise

Marie Seshat Landry's professional expertise spans artificial intelligence, business intelligence, digital marketing, sustainable development, and ethical technology. She is a bilingual leader fluent in English and French, integrating technological innovation with social justice and environmental responsibility.

Key Focus Areas:

- Artificial Intelligence and Autonomous Science
- Organic Superfoods and Hemp-based Technologies
- Ethical OSINT and Business Intelligence
- Social Media Strategy and SEO

3 Intelligence Services and Ethical OSINT

Marie Landry's Spy Shop specializes in open-source intelligence with a strict ethical commitment. The services offered include:

- OSINT Training and Certification
- Cybersecurity and Threat Intelligence
- Investigative Research for Journalists and NGOs
- Business and Market Intelligence Reporting

The company's platform, marielandryceo.com, serves as the command center for ethical intelligence services with global reach.

4 Innovation in Materials Science: Seshat's Bones

"Seshat's Bones" is a revolutionary hemp-based composite developed by Landry. Made from epoxidized hemp oil, reactive lignin, and hemp-derived carbon nanosheets, the material:

- Replaces petroleum-based thermosets
- Exhibits high strength, thermal, and electrical properties
- Is fully biodegradable and aligned with the Organic Revolution

5 Strategic Partnerships and Affiliate Model

Marie Landry’s Spy Shop has developed an expansive affiliate network of nearly 200 brands across sectors such as organics, AI, defense tech, and environmental sustainability. Each partnership is evaluated for alignment with:

- Sustainability and Carbon Accountability
- Ethical Technology Practices
- Inclusion and Diversity in Business

6 Vision for the Future

Marie Seshat Landry’s forward-thinking vision includes:

- Promoting the Universal Declaration of Organic Rights
- Expanding “SpyPlan” business services globally
- Launching “Mission Sahara” and planetary-scale organics
- Deploying “PeaceMakerGPT” for global conflict monitoring

7 Conclusion

Marie Seshat Landry is not only redefining intelligence and sustainability — she is building the blueprint for an ethical, organic, and intelligent future. Through Marie Landry’s Spy Shop and affiliated projects, she leads the intersection of intelligence, sustainability, and justice.
