Executive Summary

The Global Campaign to Dismantle the Monarchy, operating under the hashtag #Kanatawi, is a decentralized, peaceful, and ethical movement dedicated to abolishing the British monarchy and reclaiming all lands, resources, and rights currently held in the name of the Crown. This campaign is founded on historical truth, human rights law, and the principle of Indigenous sovereignty. It employs a multi-faceted approach including organized disruption, open-source intelligence (OSINT), mass education, eco-activism, and lawful direct action to dismantle colonial institutions and restore power to the people and the planet.

1 Vision & Mission

Vision: To achieve a post-monarchic world where Indigenous nations and communities exercise full control over their land, culture, and futures, free from systems imposed by the Crown. This vision anticipates a future where

self-determination and traditional governance structures replace the vestiges of colonial rule.

Mission: To establish and mobilize a global alliance comprising citizens, Indigenous leaders, academics, and legal experts. This alliance will work collaboratively to peacefully dissolve the British Crown, dismantle imperial myths, and enforce reparative justice through legal, economic, and social means. The mission is committed to fostering a global movement that understands and actively challenges the historical and ongoing impacts of monarchical systems.

2 Core Objectives

The campaign's core objectives are designed to systematically dismantle the monarchy's power and influence:

- **Expose Illegitimacy:** To comprehensively expose the illegitimacy of the Crown through the rigorous application of open-source evidence, historical facts, and robust legal arguments. This involves widespread dissemination of information to educate the public and build a compelling case against monarchical claims.
- **Undermine Dependencies:** To undermine economic and political dependencies on monarchic institutions globally. This includes targeting financial ties and political loyalties that sustain the monarchy.
- **Support Indigenous Reclamation:** To actively support Indigenous land reclamation efforts and Crown land occupations. This objective emphasizes direct action and solidarity with Indigenous communities seeking to regain their ancestral territories.
- **Dismantle Crown Holdings:** To dismantle Crown holdings through sustained legal, financial, and symbolic pressure. This involves a multi-pronged attack on the physical and perceived assets of the monarchy.
- **Build Post-Monarchy Alternatives:** To build a compelling post-monarchy alternative vision rooted in local sovereignty and decolonial governance. This objective focuses on developing viable and equitable systems to replace the current monarchical structures, emphasizing community-led and Indigenous-informed governance models.

3 Key Strategies

The campaign will implement a series of integrated strategies across various domains:

3.1 Information Warfare (OSINT & Education)

- **OSINT-Powered Database:** Launch a global open-source intelligence

(OSINT)-powered database to meticulously document Crown land holdings and instances of colonial violence. This database will serve as a central repository for evidence and a tool for public education.

- **"Truth Against the Crown" Media Campaign:** Initiate a pervasive media campaign titled "Truth Against the Crown". This campaign will disseminate factual information and counter monarchical propaganda through various media channels.
- **Decentralized Archives:** Establish decentralized archives complemented by Indigenous-led publishing networks. This ensures that diverse voices and perspectives, particularly those of Indigenous communities, are amplified and preserved.

3.2 Nonviolent Direct Action

- **Symbolic Occupations:** Organize symbolic occupations of Crown land and monuments. These actions will draw attention to the contested nature of these spaces and challenge their perceived legitimacy.
- **"Un-Crowning" Events:** Stage "Un-Crowning" events in major global cities. These public demonstrations will serve as symbolic acts of rejection of monarchical authority.
- **Protest Art Installations:** Commission and deploy protest art installations under the theme "The Crown Is a Lie". Art will be utilized as a powerful medium for conveying critical messages and engaging the public emotionally and intellectually.

3.3 Economic Pressure Campaigns

- **Boycott Crown-Chartered Corporations:** Implement boycotts of corporations chartered by the Crown. This strategy aims to disrupt the financial networks that support the monarchy.
- **Divestment from Royal Entities:** Encourage divestment from royal banks and estates. This will put direct financial pressure on institutions associated with the Crown.
- **Build Sovereign Economic Systems:** Actively work to build decentralized and sovereign economic systems. This long-term strategy aims to create economic alternatives that empower communities and reduce reliance on existing colonial financial structures.

3.4 Legal & Political Disruption

- **Legal Challenges:** Initiate legal challenges to the legitimacy of Crown land holdings. This involves pursuing cases through national and international legal frameworks.

- **UN Filings:** Prepare and submit filings to the United Nations concerning genocide and continued colonialism perpetrated by the Crown. This elevates the issue to an international human rights platform.
- **Commonwealth Republicanism Movements:** Foster and support Commonwealth-wide movements toward republicanism. This strategy aims to encourage former colonial nations to sever ties with the monarchy and adopt republican forms of government.

3.5 Symbolic & Cultural Dismantling

- **Removal of Monarchic Symbols:** Advocate for and facilitate the removal of monarchic symbols from public spaces. This includes statues, street names, and other public displays that glorify the monarchy.
- **Decolonial Education Curriculum:** Develop and promote decolonial education curricula. This aims to reframe historical narratives and promote a more accurate understanding of colonialism and Indigenous sovereignty within educational systems.
- **Global Art, Music, and Storytelling:** Launch global art, music, and storytelling campaigns. These cultural initiatives will aim to shift public perception, celebrate Indigenous cultures, and promote decolonial narratives.

4 Organizational Structure

The "Riot Against The Crown" campaign will operate with a flexible and resilient organizational structure:

- **Core Network:** Comprised of specialized cells focusing on Legal, Indigenous, OSINT, and Strategy. This core network will provide expertise and strategic direction.
- **Decentralized Chapters:** Organized geographically to allow for localized action and responsiveness. These chapters will adapt strategies to their specific regional contexts.
- **Alliances:** Form strategic alliances with key partners, including Indigenous governments, youth movements, climate justice organizations, and investigative journalists. These alliances will broaden the campaign's reach and impact.

5 Revenue Model

The campaign will sustain its operations through a diversified revenue model:

- **Crowdfunding, Merch, and Patronage:** Leveraging public support through crowdfunding platforms, sales of merchandise, and direct patronage.
- **Grants:** Seeking grants from human rights and climate justice funds that align

with the campaign's objectives.

- **Consulting:** Offering consulting services on decolonization and land return frameworks. This leverages the campaign's expertise to generate revenue while advancing its mission.

6 Milestones & Timeline

The campaign will progress through defined phases with specific milestones and timelines:

Phase	Milestone	Timeline
Phase 1	Build OSINT Repository & Media Toolkit	Q1-Q2 Year 1
Phase 2	Launch Campaign: "The Crown Is a Lie"	Q3 Year 1
Phase 3	Global Day of Action & Shutdowns	Q1 Year 2
Phase 4	Legal Filings and UN Campaigns	Q2 Year 2
Phase 5	Crown Land Reclamation Support	Ongoing
Phase 6	Monarchy Abolition in Target States	Year 3+

7 Legal & Ethical Framework

The campaign's operations will be strictly guided by:

- **United Nations Declaration on the Rights of Indigenous Peoples (UNDRIP):** Adherence to the principles and rights enshrined in UNDRIP.
- **Geneva Conventions & ICC Frameworks:** Compliance with international humanitarian law as outlined in the Geneva Conventions and frameworks of the International Criminal Court (ICC).
- **Ethics of Nonviolence, Transparency, and Radical Truth:** A fundamental commitment to nonviolent direct action, complete transparency in all operations, and the pursuit of radical truth in all communications and actions.

8 Risks & Mitigations

The campaign acknowledges potential risks and has developed mitigation strategies:

Risk	Mitigation
State surveillance or repression	Encryption, decentralized leadership, legal defense networks
Disinformation or co-optation	Transparent communications, decentralized media
Internal division or burnout	Trauma-informed organizing, horizontal governance
Public misunderstanding	Art, satire, education, cultural storytelling

9 Exit Criteria

The campaign will consider its primary objectives met when the following criteria are achieved:

- At least five countries formally remove the monarchy from their governance structures.
- Significant Crown lands are under legal challenge or have been successfully returned to their rightful owners.
- There is widespread divestment from the Crown Estate and de-chartering of royal corporations.
- The monarchy globally loses its legitimacy in the eyes of the public and international bodies.
- Alternative decolonial federations begin to emerge as viable governance models.
