

Setting Up SearchForOrganics.com:

1. **Create a Blogger Account:**

- Go to <https://www.blogger.com/> and sign up or sign in with your Google account.

2. **Create a New Blog:**

- Click on "Create a new blog" and follow the prompts to set up your blog. Choose a name, URL, and template for your blog.

3. **Customize Your Blog:**

- Go to your blog's dashboard and navigate to the "Theme" section to customize the appearance of your blog. Choose a design that reflects the organic theme of your blog.

4. **Publish Your Blog:**

- Once you're satisfied with the customization, publish your blog to make it live.

Setting Up Google Organics:

1. **Create a Google Custom Search Engine (CSE):**

- Go to <https://cse.google.com/cse/> and click on "Add" to create a new custom search engine.
- Follow the instructions to configure your custom search engine. Configure it to search for organic products using relevant keywords.
- Once created, note down the unique identifier (cx code) for your custom search engine.

2. **Integrate Google CSE with Your Blog:**

- In your Blogger dashboard, go to "Layout" and click on "Add a Gadget."
- Choose the "HTML/JavaScript" gadget and paste the following code, replacing `YOUR\_CSE\_ID` with your custom search engine's ID:

```
```html
<script>
(function() {
 var cx = 'YOUR_CSE_ID';
 var gcse = document.createElement('script');
 gcse.type = 'text/javascript';
 gcse.async = true;
 gcse.src = 'https://cse.google.com/cse.js?cx=' + cx;
 var s = document.getElementsByTagName('script')[0];
 s.parentNode.insertBefore(gcse, s);
})();
</script>
<gcse:search></gcse:search>
```

...

- Customize the appearance and behavior of your search box as needed.

### ### Setting Up Bing Organics:

#### 1. **Create a Bing Custom Search:**

- Go to <https://www.customsearch.ai/> and sign in with your Microsoft account.
- Click on "Create a new search" and follow the instructions to create your custom search engine. Configure it to search for organic products using relevant keywords.
- Once created, note down the unique identifier for your custom search engine.

#### 2. **Integrate Bing Custom Search with Your Blog:**

- In your Blogger dashboard, go to "Layout" and click on "Add a Gadget."
- Choose the "HTML/JavaScript" gadget and paste the following code, replacing `YOUR\_BING\_ID` with your custom search engine's ID:

```
```html
<script>
(function() {
  var cx = 'YOUR_BING_ID';
  var s = document.createElement('script');
  s.type = 'text/javascript';
  s.async = true;
  s.src = 'https://cse.bing.com/cse.js?cx=' + cx;
  var x = document.getElementsByTagName('script')[0];
  x.parentNode.insertBefore(s, x);
})();
</script>
<div class="gcse-searchbox"></div>
<div class="gcse-searchresults"></div>
```
```

- Customize the appearance and behavior of your search box as needed.

### ### Launching SearchForOrganics.com:

#### 1. **Testing:**

- Test both Google Organics and Bing Organics to ensure they return relevant results for organic products.

#### 2. **Optimization:**

- Consider optimizing the search engines based on user feedback and usage patterns.

#### 3. **Launch:**

- Once you're satisfied with the functionality and performance of both search engines, launch them simultaneously on SearchForOrganics.com.

#### 4. **\*\*Promotion:\*\***

- Promote your blog and its search engines through social media, email newsletters, and other marketing channels to attract organic product enthusiasts.

Following these instructions should help you set up SearchForOrganics.com with both Google Organics and Bing Organics, providing a comprehensive organic product search platform.
