Join the Movement

Together, we can create a future where sustainability is the norm, not the exception.

Press Release

SearchForOrganics.com Launches as the Go-To Platform for Certified Organic Choices

Moncton, NB, Canada, December 13, 2024 - SearchForOrganics.com is thrilled to announce its official launch as the premier search engine dedicated to empowering consumers worldwide with certified organic options. This innovative platform uses AI-powered tools and search technologies supported by Google, Bing, Gemini, and ChatGPT, with more integrations on the way. Our cutting-edge algorithms and verified certifications prioritize sustainable and ethical choices, setting a new standard for eco-conscious living.

With trusted affiliate partnerships, educational resources, and plans for global expansion, SearchForOrganics.com aims to revolutionize the organic market. The platform encourages a shift toward sustainability and transparency, ensuring that consumers have access to authentic, certified organic products.

"Our mission is to inspire and educate, creating a future where sustainability is not just an option but the norm," said Marie Seshat Landry, CEO.
