Our collective mission transcends bias, setting forth to investigate and advocate, with unwavering commitment, the principles of knowledge, fairness, and the pursuit of truth. The Vatican, like any other entity, is subject to the scrutiny of those who value the principles of international laws, human rights, and ancient unwritten organic laws.

****Mission Objectives:****

Just as we would with any other nation, institution, or entity, we employ the tools of critical thinking and comprehensive analysis. Our goal is to unravel intricate threads of controversy, providing a more profound comprehension of historical and contemporary issues such as pedophilia, LGBTQ topics, genocides, colonization, human trafficking, slavery, and gender issues.

We, treating the Vatican as an equal entity, expect and advocate for a commitment to the dissemination of knowledge. In this context, the Vatican's willingness to adhere to the same expectations of openness, as any other entity, is paramount. It aligns with the principles of evidence-based thought and informed discourse, promoting not only the truth but also the mental health and well-being of those affected by Vatican-related issues.
- **Publication of Entire Secret Archives:**** We champion the transparent publication of the entire Vatican secret archives, recognizing its vital role in the pursuit of truth, justice, and the elucidation of Vatican-related issues. This commitment extends to the principles of international laws, human rights standards, and the application of ancient unwritten organic laws, encapsulating principles of honesty, the absence of abuse of power, and the respect for the rights and dignity of all.
