

THE MANIFESTO OF THE RATIONAL WORLD

Codified via International, Natural, and Organic Law

Preamble: The Foundational Justification

Whereas Natural Law dictates that the fundamental state of the human mind is one of reason and sensory perception; and **Whereas** Organic Law (the foundational laws of a state) requires the absolute separation of the metaphysical from the material for the purpose of civil order; and **Whereas** International Law acknowledges the right to privacy and the protection against psychological coercion;

It is hereby enacted that the public square shall be a vacuum of supernatural claims, ensuring the "Negative Right" of every citizen to be free from unsolicited ideological encroachment.

SECTION I: COGNITIVE LIBERTY & THE AUDITORY ENVIRONMENT

Backing: Right to Privacy (ICCPR Art. 17) and the Law of Nuisance.

Article 1: The Prohibition of Involuntary Indoctrination Under the principle of **Informed Consent**, no individual shall be subjected to religious preaching (proselytizing) without a prior, written request. Public space is defined as "neutral ground" where the silence of the observer is the primary protected interest.

- **Legal Basis:** Grounded in the **Right to be Left Alone** (Warren & Brandeis).

Article 2: Acoustic Neutrality and Nuisance Law The broadcasting of religious frequencies (music, bells, calls) is classified as **Auditory Trespass**. Natural law recognizes the right to a quiet environment as essential for the preservation of the rational mind.

- **Legal Basis:** Based on **Tort Law (Private/Public Nuisance)**; auditory pollution is an interference with the enjoyment of land and personhood.

SECTION II: THE SECULAR ARCHITECTURE

Backing: The Establishment Clause (Extreme Interpretation) and Public Order.

Article 3: Visual Neutrality (The Organic Landscape) Organic law requires that the state and its territory reflect no favoritism toward myth. The removal of religious iconography is not "destruction," but the **Restoration of Neutrality**.

- **Legal Basis:** The **Principle of Laïcité** (Constitutional Secularism), ensuring no supernatural symbols occupy the "common visual field."

Article 4: Seasonal and Aesthetic Rationality The banning of religious holidays and decorations is the enforcement of **Temporal Neutrality**. The calendar is a tool for civil administration, not mythological commemoration.

- **Natural Law Basis:** Recognition of the **Solar and Lunar cycles** as the only objective measures of time.

SECTION III: THE FRAUD & EDUCATION PROTOCOLS

Backing: Consumer Protection Law and the Right to Objective Truth.

Article 5: Supernatural Claims as Consumer Fraud Any claim of "miraculous" healing or divine intervention made in a public or commercial capacity is subject to the **Rules of Evidence**. If a claim cannot be reproduced under laboratory conditions, it is legally defined as "Misleading and Deceptive Conduct."

- **Legal Basis: Statutory Fraud Laws**; the protection of the vulnerable from unverified claims.

Article 6: Educational Integrity and Scientific Literacy Inhabitants have a right to **Epistemic Protection**. Organic law mandates that state-funded education must be exclusively evidence-based. Teaching myth as fact is a breach of the "Fiduciary Duty" the state owes to the developing minds of its citizens.

SECTION IV: ENFORCEMENT & REMEDY

Backing: Civil Sanctions and Digital Self-Defense.

Article 7: The Right to Injunctive Relief Any citizen subjected to religious "bullshit" (preaching or iconography) has the standing to file for an **Immediate Cease and Desist**. The burden of proof lies with the speaker to prove the objective reality of their claims before they are permitted to broadcast them.

Article 8: Universal Financial Liability Religious entities shall lose all tax-exempt status and be held liable for **Emotional Distress** damages if they violate the "Right to Silence" of any individual within a Rational Zone.

Summary of Legal Backing

Legal Framework	Application to Your Manifesto
International Law	Utilizes the "Freedom of Thought" as a shield <i>against</i> involuntary religious exposure.
Natural Law	Asserts that since "miracles" violate the laws of physics, they have no standing in human law.
Organic Law	Establishes secularism not just as a policy, but as the foundational "DNA" of the state.

Final Proclamation

Reality is self-evident. By stripping away the layers of inherited myth, we return humanity to its organic state: a species governed by the observable, the provable, and the rational. The "supernatural" is hereby relegated to the status of a private, silent, and strictly personal hobby, with zero public footprint.

Queen Marie-Soleil Seshat Landry
