

Trappin' the Farts

Marie Seshat Landry

Sunday 9th February, 2025

Verse 1

I'm out in the club, feelin' fresh, feelin' fly,
Got a bad lil' shawty, got my drink on the side.
Then my stomach start rumblin', oh no, not tonight,
Gotta keep it locked down, keep it tight, keep it right.

(Yeah, yeah, hold it in now)

Sweatin' bullets, man, I'm fightin' for my life,
Tryna keep it silent, keep it low, keep it tight.
Ain't no way I'm lettin' loose, can't be causin' a scene,
If this gas start escapin', it'll kill the whole team.

Chorus

Trappin' the farts, gotta keep 'em on lock,
Holdin' it down like a padlock top.
No leaks, no slips, gotta seal it up tight,
Pray to the Lord that it don't ignite!

Trappin' the farts, gotta move real smooth,
Dancin' on the floor, gotta play it real cool.
One wrong step, that's a deadly mistake,
Whole squad down if I let this quake!

Verse 2

Met a baddie at the bar, she said, "Boy, what's good?"
I said, "Damn, you lookin' fine, yeah, you misunderstood."
But my stomach still tweakin', I can feel it inside,
It's a gas leak warning, it's a category five.

(Oh Lord, no!)

Tryna keep composure, but I'm losin' my fight,
If I slip just a little, it'll ruin my night.
Tryna clench, tryna flex, standin' stiff like a board,
Man, this gas got me hostage, it's a chemical war.

Chorus

Trappin' the farts, gotta keep 'em on lock,
Holdin' it down like a padlock top.

No leaks, no slips, gotta seal it up tight,
Pray to the Lord that it don't ignite!

Trappin' the farts, gotta move real smooth,
Dancin' on the floor, gotta play it real cool.
One wrong step, that's a deadly mistake,
Whole squad down if I let this quake!

Bridge

(Oh no, oh no, I can't hold no more...)

(Pfffffft!)

Everybody lookin', now I gotta dip,
Grabbed my drink, hit the door, did a Tokyo Drift!
Left the whole club in a gas attack,
They gon' tell this story, ain't no turnin' back!

Outro

Trappin' the farts, but I failed at the end,
Blew up the spot, can't come back again.
Learned my lesson, can't hold back forever,
Next time, I'm lettin' go—full pressure!
