

NATIONAL HEALTH & SOCIAL CARE ENTITLEMENT ACT

A Statutory Guarantee for Future Generations

"The NHS will last as long as there are folk with the faith to fight for it." — This Act provides the legal armor for that faith.

Article I: The Three Pillars

1.1 Universal Coverage: Healthcare is a right of residency, not a benefit of employment or wealth.

1.2 Equity of Service: The quality of care received shall be uniform across all four nations of the Union, regardless of geographic location.

1.3 Integration: Social care is hereby recognized as inseparable from medical care and shall be integrated into the same funding and delivery framework.

Article II: Accountability & Governance

2.1 The Patients' Charter: Citizens have a right to maximum waiting times for elective and emergency care, enforceable through the courts if systemic failures occur.

2.2 Public Ownership: All assets, land, and intellectual property of the NHS are held in a National Trust for the people and cannot be sold for private gain.
