

MissionIraq: Collective OSINT Initiative

Active — April 2025

Mission Summary

MissionIraq is a collaborative OSINT initiative that harnesses the collective expertise of individuals and organizations dedicated to promoting ethical stabilization and sustainable development in Iraq. Our intelligence efforts focus on conflict resolution, regional de-escalation, and capacity-building, ensuring that all stakeholders contribute to a safer future.

Strategic Priorities & OSINT Collection Methodology

1. Peacebuilding & National Stability

- **Community Engagement:** Mobilizing local informants and community leaders to share insights.
- **Collection Methods:**
 - Social media monitoring across key platforms.
 - Local news aggregation and citizen journalism contributions.
 - Satellite imagery analysis to detect changes in conflict zones.

2. Foreign Military Transition Oversight

- **Collaborative Tracking:** Partnering with NGOs and local watchdogs to monitor military activities.
- **Collection Methods:**
 - Open-source analysis of defense communications.
 - Community reports on military presence and logistics.

3. Counterterrorism Intelligence Support

- **Crowdsourced Monitoring:** Engaging communities to report suspicious activities.
- **Collection Methods:**
 - Analysis of online forums and dark web discussions.
 - Geospatial mapping of security incidents contributed by local sources.

4. Regional Conflict Risk Mitigation

- **Local Insights:** Leveraging knowledge from regional experts and civilians.
- **Collection Methods:**
 - Monitoring communication signals and public sentiment.
 - Analyzing trade routes and transportation data through community contributions.

Intelligence Product Deliverables

1. Open Access Reporting

- **Weekly Updates:** Community-sourced threat assessments and insights.
- **Monthly Collaborative Reports:** In-depth analyses incorporating diverse perspectives.
- **Quarterly Reviews:** Comprehensive evaluations featuring contributions from various stakeholders.

2. Community Intelligence Platform

- **Interactive OSINT Portal:** Accessible for all participants to share and analyze information.
- **Risk Dashboard:** Visual tools for community members to track developments in real-time.

3. Training & Capacity Building

- **Workshops for All:** Free training sessions on ethical intelligence gathering and analysis.
- **Resource Sharing:** Providing tools and methodologies for local capacity enhancement.

Ethical Capitalism Angle

- **Support Local Enterprises:** Fostering partnerships between ethical investors and community businesses.
- **ESG Monitoring:** Involving local voices in evaluating corporate practices.

Project Timeline

- **Phase 1 (April-June 2025):** Establishing community networks and initial data collection.
- **Phase 2 (July-Sept 2025):** Expanding collaborative efforts and platform functionalities.
- **Phase 3 (Oct-Dec 2025):** Launching extensive training programs for local stakeholders.

Engagement Model

- **Open Participation:** Encouraging all community members to contribute insights and data.
- **Regular Forums:** Virtual meetings for sharing findings and discussing strategies.
- **Feedback Loops:** Continuous improvement through community suggestions and evaluations.
